MARVIN® 

BEAUTY MEETS DURABILITY

CATALOG

Five Collections. One Legacy of Innovation.

Realize your unique vision, down to the last detail, with Marvin.

Born out of a legacy of innovation, the Marvin portfolio sets the highest standards in quality you can see and feel. Each premium collection blends inspired design and materials that perform.

Through expertly crafted architectural detailing, industry-leading engineering, and true partnership, Marvin helps open up a world of possibilities.

MARVIN ULTIMATE™ COLLECTION

Endless Possibilities

Realize unique visions with endless design possibilities, each meticulously crafted.

INTERIORS

Wood

Six species options + custom, two painted or primed options, six stains + Clear Coat

EXTERIORS

Extruded Aluminum

19 colors + custom

Wood

Three species + custom

SIZING

Standard + custom sizing for replacement, remodeling, or new construction

HARDWARE

Extensive selection including Marvin Gallery Hardware

COASTAL + WATERFRONT

Hurricane Impact Zones 3 (IZ3) + Performance Grade 50 products (PG50)

MARVIN MODERN™ COLLECTION

Authentically Modern

Achieve authentic modern architecture with expansive views and strong thermal performance.

INTERIORS

Extruded Aluminum

Five color options

EXTERIORS

High-Density Fiberglass

Five color options

SIZING

Custom sizing for remodeling or new construction

HARDWARE

Minimalist hardware for modern design aesthetic

COASTAL + WATERFRONT

MARVIN

ELEVATE® COLLECTION

The Perfect Balance of Beauty and Strength

Balancing beautiful design with superior strength, the Marvin Elevate collection delivers style in any climate. Elevate features warm wood interiors that can blend in or stand out with Ultrex® fiberglass exteriors for lasting durability. The collection offers a range of carefully selected features and options, making it as versatile as it is elegant.

LONG-LASTING STRENGTH + BEAUTY

DURABLE FINISHES

Ultrex Fiberglass Exteriors

Ultrex® fiberglass is a unique, proprietary material that significantly outlasts and outperforms vinyl and vinyl/wood composite materials while offering unmatched durability and timeless style. This state-of-the-art material was developed by Marvin and is featured on the exteriors of the Marvin Elevate® collection.

Marvin uses Ultrex fiberglass because the material you choose for your windows matters. Ultrex is strong, stable, has a durable acrylic finish, and is energy efficient.

Strength

The strength of Ultrex fiberglass translates into long-term ease of operation, minimal maintenance, and superior performance.

Stability

By expanding and contracting at nearly the same rate as glass, Marvin windows and doors made with Ultrex fiberglass are more resistant to leaks and seal failures.

Finish

The proprietary acrylic finish is 3x thicker than competitive painted options, and resistant to chipping, chalking, or fading.

Energy Efficiency

Ultrex fiberglass combined with energy-efficient glass options can help manage the amount of light and heat entering and leaving your home.

How It's Made

Ultrex fiberglass is a composite material made of fine glass fibers woven into a cloth then bonded together with a formulated polyester resin. The continuous strands of fiberglass give Ultrex its strength in resisting breakage.

1

Raw Fiberglass Strands

Thin strands of strong glass cables are saturated with specifically compounded resins.

2

Pultruded Fiberglass

The strands are pulled through a heated die and cut with diamond-edged blades to form Ultrex fiberglass.

3

Proprietary Acrylic Finish

A proprietary acrylic finish is then applied; it's smoother and 3x thicker than other brands.

Stability You Can Count On

Constant expansion and contraction can gradually break down windows and doors, causing leaky seals, poor operation, and loss of structural integrity.

Ultrex® fiberglass expands and contracts at virtually the same rate as glass, so Marvin Elevate® windows and doors stay tight and true over time, resisting air leaks, seal failures, and stress cracks that can compromise energy efficiency and long-term performance.

This low rate of expansion and contraction also allows windows and doors to open and close on demand without sticking or binding from swelling, warping, material distortion, or deformation from the heat.

A Long-Term Finish

Marvin Ultrex fiberglass finish is verified to the American Architectural Manufacturers Association (AAMA) 624 specification. Achieving AAMA 624 verification means that our finish has passed rigorous tests that simulate the harsh conditions encountered throughout the life of a window or door.

Ultrex fiberglass uses an acrylic finish that is paintable, fade resistant, and virtually maintenance free. With a finish that's 3x thicker than competitive painted options, it resists chipping, denting, and peeling.

ULTREX FIBERGLASS HAS

75%

less expansion than Fibrex®

87%

less expansion than vinyl

IN EXTREME WEATHER CONDITIONS

Ultrex fiberglass
stays true

Vinyl
can expand

Lasting Performance

Proprietary Ultrex fiberglass finish resists scratches, chalking, and fading—even in dark colors

Exteriors can be painted to match any home

Virtually maintenance free—no sanding, scraping, or painting care needed

Finish is 3x thicker than competitive painted options

Designed Efficiency Pros in Mind

The low thermal conductivity and superior performance of Ultrex fiberglass combine with a selection of energy-efficient glazing (glass) options that help manage the amount of light and heat entering and leaving your home. Our unique Ultrex® fiberglass material, available factory services, and network of dedicated service and support personnel make the Top Rated Efficiency Collection the perfect choice – no matter the project.

Windows and doors with low conductivity reduce heat loss in homes, which translates to lower energy bills.* Ultrex fiberglass provides an insulated barrier against extreme weather temperatures, keeping homes comfortable and reducing heating and cooling costs.

Windows

More flexibility to meet any design challenge.
The Marvin Elevate® collection has an extensive
selection of styles, sizes, shapes, and options.

—
AWNING, CASEMENT,
DIRECT GLAZE WINDOWS
Gunmetal

Casement

The Marvin Elevate® Casement window is side hinged and built for smooth operation with a concealed multi-point locking system. Casement windows create a tight seal on all four sides, meaning fewer opportunities for air leaks.

Light-Filled Hingham Harbor Home

Expansive windows and doors helped this architect achieve her goal of maximizing natural light while also bringing the outdoors into her family's home. Learn more on the Marvin Inspiration blog.

FEATURES

fig. 1

Doors

Showcase views and infuse your home with natural light and fresh air, thanks to the durable door options in the Marvin Elevate® collection.

MARVIN ELEVATE
BI-FOLD DOOR
Ebony

Bi-Fold

The Marvin Elevate® Bi-Fold door effortlessly glides and stacks open so you can enjoy scenic views and invite maximum airflow into your home. When completely closed, the door is designed with narrow profiles to fill your home with light.

Natural Light Boosts Creativity in This Home for Musicians

Designed for a tight-knit family of musicians, the Unbridled Path home encourages play, creativity, and connectivity by illuminating the power of natural light. Learn more on the Marvin Inspiration blog.

Window Hardware

Our safe and sound profile is made with strong Ultrex® fiberglass for safety and security. An AIA-verified acrylic finish for low maintenance and superior aesthetics.

SASH LOCK + KEEPER

Available on Double Hung and Glider windows

FOLDING HANDLE

Available on Casement and Awning windows

Door Handles

Door handles for the Marvin Elevate® collection are available in two distinct hardware collections.

Available keyed-alike option (use one key on multiple locks, with up to three different keys on each project).

Choose a distinct interior and exterior handle finish that matches or complements the interior and exterior color of your door.

FIBERGLASS EXTERIOR COLORS

HARDWARE FINISH OPTIONS

PVD FINISHES

The Physical Vapor Deposition (PVD) process adds a layer of toughness to hardware exposed to environmental factors like direct sun and humidity. PVD finishes resist fading and discoloration, even in coastal areas. PVD has the highest grade corrosion-resistant finish. PVD finish is available on exterior door hardware in Oil Rubbed Bronze, Satin Nickel, and Brass.

Divided Lites

The look of multiple individual panes of glass is popular in a wide range of architectural styles. Simulated Divided Lites (SDLs) and Grilles-Between-the-Glass (GBGs) mimic the look of these individual panes of glass without sacrificing energy efficiency. Divided lites available on select Elevate products.

Grilles-Between-the-Glass

GBGs are available in several popular lite cut options for a classic divided lite look and easy glass cleaning.† Available in Ebony, Bronze, and Stone White interior and Stone White, Cashmere, Pebble Gray, Bronze, Gunmetal, or Ebony exterior.

Simulated Divided Lite

These bars permanently adhere to both sides of the glass for a more authentic look. Available with or without spacer bar and in several lite cut options.†

GRILLES-BETWEEN-THE-GLASS

SIMULATED DIVIDED LITE

* Argon gas not available in high elevations where capillary tubes are required

† For more options, visit marvin.com

IZ3 Protected for Coastal Living

Simulated checkrails are the perfect solution when aesthetics call for the beauty of a double hung, but operation, egress, or performance demand another solution. Specify placement of the horizontal simulated checkrail bar and the lite cut patterns above and below.

Rigorously tested by third-party agencies to meet or exceed the most stringent coastal codes, they protect against flying debris, driving rain, cyclic pressure, and extreme temperatures. The Ultrex® fiberglass finish meets AAMA 624 standards for weathering and fading resistance.

These illustrations offer a sampling of 7/8" SDL patterns that can be selected in combination with the 2-1/32" simulated checkrail on Casement, Awning, Glider, Direct Glaze rectangle, and Picture windows, and all Elevate doors.

Since 1912, Marvin has been a family-owned and -led company, with a legacy of innovation and commitment to the highest quality. We understand the unique opportunity windows and doors have to improve our spaces and how we feel in them. That's why we never stop pushing what's possible and inventing new solutions to channel fresh air, enhance light quality, and connect with the world around us.
