THOUGHTFUL INNOVATION

DIRECT GLAZE WINDOWS
Bronze

Windows

Marvin Modern™ windows are built to showcase the precise lines of modern architecture while bringing more light and fresh air into interior spaces.

DIRECT GLAZE, CASEMENT,
AUTOMATED AWNING WINDOWS
Ebony

Casement

The side-hinged Marvin Modern™ Casement window features pure modern design aesthetics. Available with push-out, crank-out, or automated operation, it can be used on its own or as part of the Modern modular design system to deliver consistent profiles and expansive glass.

MARVIN MODERN™ MULTI-SLIDE DOOR, AWNING,
CASEMENT, DIRECT GLAZE WINDOWS
Gunmetal, Stone White

Interior Color Options

Low-Gloss Aluminum

Our thoughtfully selected color palette evokes the elemental nature of modern design. Choose split interior and exterior colors or matching colors designed to coordinate.

Simulated Divided Lites

Achieve a unique aesthetic with divided lites on any Marvin Modern™ window or door. Select from a variety of customizable patterns, available on both dual-pane and triple-pane products.

MULTI-SLIDE DOOR WITH SIMULATED DIVIDED LITES
Ebony

Glass + Glazing

The **Simulated Divided Lite with Spacer Bar (SDLs)** glass combined with the right glazing make Marvin Modern™ products an optimal choice for energy efficiency. Our proprietary High-Density Fiberglass is an excellent thermal insulator, resulting in low thermal conductivity. We offer window and door options with two or three panes of glass and a range of glazing options to meet the performance challenges of every climate.

SIMULATED DIVIDED LITE OPTIONS

Dual Pane Glazing

Our standard glazing is dual pane: two panes of glass with Low E coatings and insulated with argon gas. Compared to a single glass pane, dual pane glass cuts energy costs significantly because of low emissivity coating and the gas-filled insulating space between the glass layers.

Triple Pane Glazing

Triple pane glazing consists of three panes of glass with Low E coating applied to the surface. The two glass spaces are insulated with argon gas between the panes. Available in a 1-1/4" makeup in all Marvin Modern products and a 1-3/4" makeup in the Modern Direct Glaze windows to better support thermal performance in larger glass sizes.

Simulated Frame

The 2-7/8" Simulated Frame, also with black spacer bars, features an aluminum interior and High-Density Fiberglass exterior. It can be combined with 7/8" or 1-1/8" SDL bars in Simulated Rail Prairie 6, Simulated Rail Prairie 9, and Simulated Frame pattern (STC/OITC) and high altitudes.

A variety of decorative glass options, including those shown below, and others, are available to meet the unique needs of each project. Tempered or laminated glazing is available in Frosted, Obscure, and Gray or Bronze Tint.

Sill Hardware Styles

We've innovated every aspect of the Marvin Modern™ collection, right down to the smallest details. We offer flush sill options for both temperate and inclement conditions, as well as a Performance sill for areas where recessing isn't an option for clean aesthetics and security.

Modern sills are engineered with our proprietary High-Density Fiberglass (proprietary Ultrex® fiberglass on the Modern Sliding door) for superior strength, durability, and thermal performance. All door sills are available in Ebony or Bronze with aluminum liners and covers, with the exception of the Saddle sill.

Window Hardware

Door Handles

From minimalist handles to nested locks, our hardware is designed to complement clean, modern lines while delivering reliable performance. Door hardware is available with split finishes for interior and exterior.*

Since 1912, Marvin has been a family-owned and -led company, with a legacy of innovation and commitment to the highest quality. We understand the unique opportunity windows and doors have to improve our spaces and how we feel in them. That's why we never stop pushing what's possible and inventing new solutions to channel fresh air, enhance light quality, and connect with the world around us.
